

Critical thinking is the ability to think clearly and rationally, understanding the logical connection between the ideas. It requires you to use your ability to reason. It is about being an active learner rather than a passive recipient of information.

Let's give our students an opportunity to test their cognitive abilities. A link will be shared with students to fill a form that contains some creative questions.

Following are the guide lines:

- It is important to fill name, class & section, email id in the beginning of the form.
- Kindly fill all the questions.
- It is one-time opportunity, so it is important to check all the details and answers before submitting the form.
- Answer key will be shared by your class in-charges.
- Last date of submission is 16.08.2020.
