STRUCTURE AND CURRICULUM

The NSIC Bootcamp is delivered through a Learning Management Session (LMS). This will ensure that students can learn at their own pace and at their own convenience. The structure of the program will be as follows:

Mentor videos :

Mentor-led sessions by 6 top Space Scientists, Space Industry leaders and entrepreneurs.

Junior Scientist : (Grade 5-8)

Recorded classes, useful resources and guidelines on:
a. Space Junk Collection Robot
b. Reusable Rocket Design
The students will have to watch both the pre-recorded session and choose any one of them for the final report. The report can be submitted in form of PPTs, Videos, or Word document.

Senior Scientist : (Grade 9-12)

Recorded classes, useful resources and guidelines on:
a. Satellite Design
b. Indian Spaceship Design for Mars
The students will have to watch both the pre-recorded session and choose any one of them for the final report.

Research Report Guidelines & Report Submission :

Students have to follow the guidelines and draft their own research report from the topics mentioned above. The students will have to then upload their own research report which will be evaluated by the jury.

TERMS AND CONDITIONS :

1. ATL In-Charge and School Teachers may support the students in drafting their research report.

2. This competition is open to all students of class VI to Class XII of India (ATL Schools and non-ATL Schools). Interested students may submit their names to their class in charges latest by 18.08.2023. After that link will be shared with students for registration on the portal.

3. Students must accurately enter the details of their contact number and email ID while registering on the portal. All communication related to NSIC will be shared on the primary contact details.

4. Please note, you should fill the online form carefully and correctly, in case of incomplete or incorrect information entered in the form, your entry may be disqualified.
